

### Introduction

The recent outbreak in Chibougamau continues to be closely monitored. At this time, all Cree tested have come back negative. Travel to Chibougamau should be limited to essential needs and services to help relieve pressure on contact tracing measures and resources that continue to be required.

Unless a 14-day isolation is prescribed by a medical professional, the current isolation requirement as per the local Mandatory Self-Isolation Law (MSIL) is 7 days for fully vaccinated individuals and 10 days for those who are partially or unvaccinated.

### Status of Cases

5 Active cases within Eeyou Istchee;

- Waskaganish 3
- Waswanipi 1
- Mistissini 1

All cases within Eeyou Istchee are contained and closely monitored. We would like to thank the Local PSOs for their continued hard work and vigilance in keeping our communities safe.

There are 3 cases of residents of Eeyou Istchee isolating outside of Eeyou Istchee that are not included in these figures who are also closely monitored.
